BILLING INSTRUCTIONS -- COST-REIMBURSEMENT TYPE CONTRACT

1. Introduction. These instructions are provided for use by Contractors in the preparation and submission of vouchers or invoices requesting reimbursement for work performed under cost-reimbursement type contracts. Compliance with these instructions will reduce correspondence and other causes for delay to a minimum and will thus promote prompt payments to the Contractor.
2. Voucher Form. In requesting reimbursement, Contractor shall use Standard Form (SF) 1034, Public Voucher for Purchases and Services Other Than Personal (see Exhibit A, Page 1 of 2), and its continuation sheet, SF 1035 (see Exhibit A, Page 2 of 2), supported by a Statement of Cost (see Exhibit B). An acceptable substitute (which provides the same necessary information as found in Exhibit A and B of these instructions) may be used provided the written consent of the Contracting Officer is first obtained.
3. Preparation
 - a. SF 1034 shall be completed in accordance with the following instructions notations (see counterpart notations on Exhibit A, Page 1 of 2):

 - (7) Identify billing period covered (e.g., "January 19_" or "January - March 19_").

(8) Enter dollar amount.

- b. The Statement of Cost shall be completed substantially as shown in Exhibit B, making due allowance for the Contractor's cost accounting system. Costs claimed shall be only those recorded costs authorized for billing by the payment provisions of the contract. Indirect costs claimed shall reflect actual experience, but in no event shall exceed those approved for billing purposes by the Contracting Officer. Additional supporting data for claimed costs shall be provided in such form and reasonable detail as an authorized representative of the Contracting Officer may require. For "Capital Equipment" and "Other Nonexpendable Equipment" supporting schedules shall be provided, including all information required by 41 C.F.R. 109 (See publication DOE/MA-0003, Management of Government Property in the Possession of Off-site Contractors (DOE-PMR 109-60)) so that prior approval of purchases may be verified, and schedules of Government property under the contract may be revised as required.

If contractual effort is performed under Orders issued against the contract (i.e., Task Orders, Work Orders, etc.) a separate Statement of Cost shall be completed for each order under which reimbursement is requested. In addition, a "Consolidated Statement of Cost" identified accordingly (substantially as shown in Exhibit B) shall be submitted which reflects the total of all Task/Work Orders and shall be modified as follows:

- (1) Change title to:

STATEMENT OF COST -- TASK/WORK ORDER NO. _____

- c. Level-of-effort Contracts: For Level-of-effort type contracts, Contractors shall include a formula/explanation showing how the fee payment requested was determined (e.g., total hours delivered/provided divided by total hours to be delivered times total contract fee less any previous fee payment).
 - d. All other Cost-Reimbursement Type Contracts: For all other cost-reimbursement type contracts, the Contractor shall state the percentage of completion, show the basis of rationale used in arriving at that percentage of completion, and show the calculation used in arriving at the requested fee payment.
4. Invoicing. 17. FACILITY CLEARANCE [Deviation] DEAR 952.204-73

NOTICES

Statute prohibits the award of a contract under a national security program to a company owned by an entity controlled by a foreign government unless a waiver is granted by the Secretary of Energy.

Offerors who have either a Department of Defense or a Department of Energy facility clearance, generally need not resubmit the following FOCI information unless specifically requested to do so, instead, provide your DOE facility clearance code or your DOD assigned commercial and government entity (CAGE) code. If uncertain, consult the office which issued this solicitation.

(a) Use of Certificate Pertaining to Foreign Interests, Standard Form 328

- (1) The contract work anticipated by this solicitation will require access to classified information or special nuclear material. Such access will require a facility clearance for the contractor organization and access authorizations (security clearances) for contractor personnel working with the classified information or special nuclear material. To obtain a facility clearance the offeror must submit a Certificate Pertaining to Foreign Interests, Standard Form 328.
- (2) Information submitted by the offeror in response to the Standard Form 328 shall be used solely for the purposes of evaluating FOCI and shall be treated by the DOE, to the extent permitted by law, as business or financial information submitted in confidence.
- (3) Following submission of a Standard Form 328, the contractor shall immediately submit to the contracting officer written notification of any changes in the extent and nature of FOCI which could affect the offeror's answers to the questions in Standard Form 328. Notice of changes in ownership or control which are required to be reported to the Securities and Exchange Commission, the Federal Trade Commission, or the Department of Justice shall also be furnished concurrently to the contracting officer.

(b) Definitions

- (1) A foreign interest is defined as any of the following:

A foreign government, foreign government agency, or representative of a foreign government;

Any form of business enterprise or legal entity organized, chartered or incorporated under the laws of any country other than the United States or its possessions and trust territories; and

Any person who is not a citizen or national of the United States.

- (2) Foreign ownership, control, or influence (FOCI) means the situation where the degree of ownership, control, or influence over a contractor by a foreign interest is such that a reasonable basis exists for concluding that compromise of classified information or special nuclear material may result.
- (c) A facility clearance is an administrative determination that a facility is eligible for access to classified information or special nuclear materials. A Facility Clearance shall be based upon a determination that satisfactory safeguards and security measures are afforded the activities being performed at the facility. It is DOE policy that all contractors or subcontractors requiring access to classified information or special nuclear material be processed for a Facility Clearance at the level appropriate to the activities being performed at the facility. Approval for a Facility Clearance shall be based upon:
- (1) A favorable foreign ownership, control, or influence (FOCI) determination. This determination will be based upon the contractor's response to the ten questions in Standard Form 328 and any supporting data provided by the contractor. Prior to award of a contract, the DOE must determine that award of the contract to the offeror will not pose an undue risk to the common defense and security as a result of its access to classified information or special nuclear material in the performance of the contract. The contracting officer may require the offeror to submit such additional information as deemed pertinent to this determination.
 - (2) A contract containing the appropriate security clauses.
 - (3) Approved safeguards and security plans which describe protective measures appropriate to the classified activities being performed at the facility.
 - (4) If access to nuclear materials is involved, an established Reporting Identification Symbol code for the Nuclear Materials Management and Safeguards Reporting System.
 - (5) For a facility to possess classified matter or special nuclear material at its location, a survey conducted no more than 6 months before the facility clearance date, with a composite facility rating of satisfactory.
 - (6) Appointment of a Facility Security Officer, and, if applicable, a Materials Control and Accountability Representative. The Facility Security Officer must possess an access authorization equivalent to the Facility Clearance.
 - (7) Access authorizations for key management personnel. Key management personnel, who will be determined on a case-by-case basis, must possess access authorizations equivalent to the level of the Facility Clearance.

- (d) A Facility Clearance is required even for contracts which do not require contractor's offices to receive, process, reproduce, store, transmit, or handle classified information or special nuclear material, but which require DOE access authorizations for the contractor's employees to perform work at a DOE location. This type facility is identified as a non-possessing facility.
- (e) Facility Clearances are required prior to the granting of an access authorization under a contract.
- (f) Except as otherwise authorized in writing by the contracting officer, the provisions of any resulting contract shall require that the contractor insert provisions similar to the foregoing in all subcontracts and purchase orders. Any subcontractors requiring access authorizations for access to classified information or special nuclear material shall be directed to provide responses to the questions in Standard Form 328 of this provision directly to the local Office of Safeguards and Security cognizant of the prime contract.

5. If the organization filing the report in item 4 checks "Subawardee", then enter the full name, address, city, state and zip code of the prime Federal recipient. Include Congressional District, if known.
6. Enter the name of the Federal agency making the award or loan commitment. Include at least one organizational level below agency name, if known. For example, Department of Transportation, United States Coast Guard.
7. Enter the Federal program name or description for the covered Federal action (item 1). If known, enter the full Catalog of Federal Domestic Assistance (CFDA) number for grants, cooperative agreements, loans, and loan commitments.
8. Enter the most appropriate Federal identifying number available for the Federal action identified in item 1 (e.g., Request for Proposal (RFP) number; Invitation for Bid (IFB) number; grant announcement number; the contract, grant, or loan award number; the application/proposal control number assigned by the Federal agency). Include prefixes, e.g., "RFP-DE-90-001."
9. For a covered Federal action where there has been an award or loan commitment by the Federal agency, enter the Federal amount of the award/loan commitment for the prime entity identified in item 4 or 5.
10. (a) Enter the full name, address, city, state and zip code of the lobbying entity engaged by the reporting entity identified in item 4 to influence the covered Federal action.

Indicate whether the payment has been made (actual) or will be made (planned). Check all boxes that apply. If this is a material change report, enter the cumulative amount of payment made or planned to be made.
12. Check the appropriate box(es). Check all boxes that apply. If payment is made through an in-kind contribution, specify the nature and value of the in-kind payment.
13. Check the appropriate box(es). Check all boxes that apply. If other, specify nature.
14. Provide a specific and detailed description of the services that the lobbyist has performed, or will be expected to perform, and the date(s) of any services rendered. Include all preparatory and related activity, not just time spent in actual contact with Federal officials. Identify the Federal official(s) or employee(s) contacted or the officer(s), employee(s), or Member(s) of Congress that were contacted.

NOTICE

Apart from other remedies allowed by law or contract, any nondisclosure or misrepresentation of relevant facts required by the OCI regulations may result in the Department disqualifying the violator from future Department contracts.

Your attention is directed to Part I, Section C-14, "Organizational Conflicts of Interest Disclosure or Representation" and to Part III, Section L, General Provision Clause entitled "Organizational Conflicts of Interest."

DISCUSSION

It is the policy of the Department of Energy to identify and avoid or mitigate organizational conflicts of interest (OCI) before entering into contracts, agreements and other arrangements.

Generally, to determine whether an organizational conflict of interest exists, the Department considers these two questions:

- Are there conflicting roles which might bias a contractor's judgment in relation to its work for the Department?
- Is the contractor being given an unfair competitive advantage based on the performance of the contract?

Department personnel will examine with particular care proposed work that calls for advising, consulting, or evaluating in areas that will directly influence Departmental decisions about future procurements, R&D programs, production and regulatory activities.

Using common sense and good business judgment, the Contracting Officer will determine whether an organizational conflict of interest exists after examining:

- all relevant facts submitted by the offeror:
- the statement of work; and
- information gained from other sources.

If a conflict does exist, the Contracting Officer:

- shall avoid any conflicts by including appropriate conditions in the contract; or

- shall disqualify the offeror from award; or
- may award the contract if the Secretary (or Secretary's designee) determines that awarding the contract--despite the conflict--is in the best interest of the United States. Circumstances justifying such a determination include situations where "the public exigency will not otherwise permit" and situations where the work or services cannot otherwise be obtained. In these cases, clauses are included in the contract to mitigate the conflict to the extent feasible and a notice of award is published in the Federal Register.

DEFINITIONS

1. The term "organization conflicts of interest" means that a relationship or situation exists whereby an offeror or a contractor (including chief executives and directors, to the extent that they will or do become involved in the performance of the contract, and proposed consultants or subcontractors where they may be performing services similar to the services provided by the prime) has past, present, or currently planned interests that either directly or indirectly (through a client, contractual, financial, organizational; or other relationship) may relate to the work to be performed under a Department contract and which (a) may diminish its capacity to give impartial, technically sound, objective assistance and advice, or (b) may result in it being an unfair competitive advantage. It does not include the normal flow of benefits from the performance of the contract.
2. The term "affiliates" means business concerns which are affiliates of each other when either directly or indirectly one concern or individual controls or has the power to control another, or when a third party controls or has the power to control both (See 41 CFR §1-1.601-1(e)).
3. The term "energy concern" as defined by Public Law 95-91, Section 601(b), includes:
 - (a) Any person significantly engaged in the business of developing, extracting, producing, refining, transporting by pipeline, converting into synthetic fuel, distributing, or selling minerals for use as an energy source, or in the generation or transmission of energy from such minerals or from wastes or renewable resources;
 - (b) Any person holding an interest in property from which coal, natural gas, crude oil, nuclear material or a renewable resource is commercially produced or obtained;
 - (c) Any person significantly engaged in the business of producing, generating, transmitting, distributing, or selling electric power;

- (d) Any person significantly engaged in development, production, processing, sale or distribution of nuclear materials, facilities or technology; and
- (e) Any person--
 - (1) significantly engaged in the business of conducting research, development, or demonstration related to an activity described in paragraphs (a), (b), (c), (d); or
 - (2) significantly engaged in conducting such research, development, or demonstration with financial assistance under any Act the functions of which are vested in or delegated or transferred to the Secretary of the Department of Energy.

INSTRUCTIONS FOR SUBMITTING COST/PRICE PROPOSALS WHEN COST OR PRICING DATA ARE REQUIRED

This document provides instructions for preparing a contract pricing proposal when cost or pricing data are required.

NOTE 1. There is a clear distinction between submitting cost or pricing data and merely making available books, records, and other documents without identification. The requirement for submission of cost or pricing data is met when all accurate cost or pricing data reasonably available to the offeror have been submitted, either actually or by specific identification, to the Contracting Officer or an authorized representative. As later information comes into your possession, it should be submitted promptly to the Contracting Officer in a manner that clearly shows how the information relates to the offeror's price proposal. The requirement for submission of cost or pricing data continues up to the time of agreement on price, or an earlier date agreed upon between the parties if applicable.

NOTE 2. By submitting your proposal, you grant the Contracting Officer or an authorized representative the right to examine records that formed the basis for the pricing proposal. That examination can take place at any time before award. It may include those books, records, documents, and other types of factual information (regardless of form or whether the information is specifically referenced or included in the proposal as the basis for pricing) that will permit an adequate evaluation of the proposed price.

I. General Instructions

- A. You must provide the following information on the first page of your pricing proposal:
- (1) Solicitation, contract, and/or modification number;
 - (2) Name and address of offeror;
 - (3) Name and telephone number of point of contact;
 - (4) Name of contract administration office (if available);
 - (5) Type of contract action (that is, new contract, change order, price revision/redetermination, letter contract, unpriced order, or other);
 - (6) Proposed cost; profit or fee; and total;

- (7) Whether you will require the use of Government property in the performance of the contract, and, if so, what property;
- (8) Whether your organization is subject to cost accounting standards; whether your organization has submitted a CASB Disclosure Statement, and if it has been determined adequate; whether you have been notified that you are or may be in noncompliance with your Disclosure Statement or CAS, and, if yes, an explanation; whether any aspect of this proposal is inconsistent with your disclosed practices or applicable CAS, and, if so, an explanation; and whether the proposal is consistent with your established estimating and accounting principles and procedures and FAR Part 31, Cost Principles, and, if not, an explanation;

- (9) The following statement:

This proposal reflects our estimates and/or actual costs as of this date and conforms with the instructions in FAR 15.403-5(b)(1) and Table 15-2. By submitting this proposal, we grant the Contracting Officer and authorized representative(s) the right to examine, at any time before award, those records, which include books, documents, accounting procedures and practices, and other data, regardless of type and form or whether such supporting information is specifically referenced or included in the proposal as the basis for pricing, that will permit an adequate evaluation of the proposed price.

- (10) Date of submission; and

- (11) Name, title and signature of authorized representative.

- B. In submitting your proposal, you must include an index, appropriately referenced, of all the cost or pricing data and information accompanying or identified in the proposal. In addition, you must annotate any future additions and/or revisions, up to the date of agreement on price, or an earlier date agreed upon by the parties, on a supplemental index.
- C. As part of the specific information required, you must submit, with your proposal, cost or pricing data (that is, data that are verifiable and factual and otherwise as defined at FAR 15.401). You must clearly identify on your cover sheet that cost or pricing data are included as part of the proposal. In addition, you must submit with your proposal any information reasonably required to explain your estimating process, including-
 - (a) The judgmental factors applied and the mathematical or other methods used in the estimate, including those used in projecting from known data; and
 - (b) The nature and amount of any contingencies included in the proposed

price.

- D. You must show the relationship between contract line item prices and the total contract price. You must attach cost-element breakdowns for each proposed line item, using the appropriate format prescribed in the "Formats for Submission of Line Item Summaries" section of this table. You must furnish supporting breakdowns for each cost element, consistent with your cost accounting system.
- E. When more than one contract line item is proposed, you must also provide summary total amounts covering all line items for each element of cost.
- F. Whenever you have incurred costs for work performed before submission of a proposal, you must identify those costs in your cost/price proposal.
- G. If you have reached an agreement with Government representatives on use of forward pricing rates/factors, identify the agreement, include a copy, and describe its nature.
- H. As soon as practicable after final agreement on price or an earlier date agreed to by the parties, but before the award resulting from the proposal, you must, under the conditions stated in FAR 15.406-2, submit a Certificate of Current Cost or Pricing Data.

II. Cost Elements

Depending on your system, you must provide breakdowns for the following basic cost elements, as applicable:

- A. **Materials and services.** Provide a consolidated priced summary of individual material quantities included in the various tasks, orders, or contract line items being proposed and the basis for pricing (vendor quotes, invoice prices, etc.). Include raw materials, parts, components, assemblies, and services to be produced or performed by others. For all items proposed, identify the item and show the source, quantity, and price. Conduct price analyses of all subcontractor proposals. Conduct cost analyses for all subcontracts when cost or pricing data are submitted by the subcontractor. Include these analyses as part of your own cost or pricing data submissions for subcontracts expected to exceed the appropriate threshold in FAR 15.403-4. Submit the subcontractor cost or pricing data as part of your own cost or pricing data as required in paragraph IIA(2) of this table. These requirements also apply to all subcontractors if required to submit cost or pricing data.
 - (1) **Adequate Price Competition.** Provide data showing the degree of competition and the basis for establishing the source and reasonableness of price for those acquisitions (such as subcontracts, purchase orders, material order, etc.) exceeding, or expected to exceed,

the appropriate threshold set forth at FAR 15.403-4 priced on the basis of adequate price competition. For interorganizational transfers priced at other than the cost of comparable competitive commercial work of the division, subsidiary, or affiliate of the contractor, explain the pricing method (see FAR 31.205-26(e)).

- (2) All Other. Obtain cost or pricing data from prospective sources for those acquisitions (such as subcontracts, purchase orders, material order, etc.) exceeding the threshold set forth in FAR 15.403-4 and not otherwise exempt, in accordance with FAR 15.403-1(b) (i.e., adequate price competition, commercial items, prices set by law or regulation or waiver). Also provide data showing the basis for establishing source and reasonableness of price. In addition, provide a summary of your cost analysis and a copy of cost or pricing data submitted by the prospective source in support of each subcontract, or purchase order that is the lower of either \$10,000,000 or more, or both more than the pertinent cost or pricing data threshold and more than 10 percent of the prime contractors proposed price. The Contracting Officer may require you to submit cost or pricing data in support of proposals in lower amounts. Subcontractor cost or pricing data must be accurate, complete and current as of the date of final price agreement, or an earlier date agreed upon by the parties, given on the prime contractor's Certificate of Current Cost or Pricing Data. The prime contractor is responsible for updating a prospective subcontractor's data. For standard commercial items fabricated by the offeror that are generally stocked in inventory, provide a separate cost breakdown, if priced based on cost. For interorganizational transfers priced at cost, provide a separate breakdown of cost elements. Analyze the cost or pricing data and submit the results of your analysis of the prospective source's proposal. When submission of a prospective source's cost or pricing data is required as described in this paragraph, it must be included along with your own cost or pricing data submission, as part of your own cost or pricing data. You must also submit any other cost or pricing data obtained from a subcontractor, either actually or by specific identification, along with the results of any analysis performed on that data.

- B. Direct Labor. Provide a time-phased (e.g., monthly, quarterly, etc.) breakdown of labor hours, rates, and cost by appropriate category, and furnish bases for estimates.
- C. Indirect Costs. Indicate how you have computed and applied your indirect costs, including cost breakdowns. Show trends and budgetary data to provide a basis for evaluating the reasonableness of proposed rates. Indicate the rates used and provide an appropriate explanation,
- D. Other Costs. List all other costs not otherwise included in the categories described above (e.g., special tooling, travel, computer and consultant services, preservation, packaging and packing, spoilage and rework, and Federal excise tax on finished articles) and provide bases for pricing.
- E. Royalties. If royalties exceed \$1,500, you must provide the following information on a separate page for each separate royalty or license fee:
 - (1) Name and address of licensor.
 - (2) Date of license agreement.
 - (3) Patent numbers.
 - (4) Patent application serial numbers, or other basis on which the royalty is payable.
 - (5) Brief description (including any part or model numbers of each contract item or component on which the royalty is payable).
 - (6) Percentage or dollar rate of royalty per unit.
 - (7) Unit price of contract item.
 - (8) Number of units.
 - (9) Total dollar amount of royalties.
 - (10) If specifically requested by the Contracting Officer, a copy of the current license agreement and identification of applicable claims of specific patents (see FAR 27.204 and 31.205-37).
- F. Facilities Capital Cost of Money. When you elect to claim facilities capital cost of money as an allowable cost, you must submit Form CASB-CMF and show the calculation of the proposed amount (see FAR 31.205-10).

III. Formats for Submission of Line Item Summaries

A. New Contracts (including Letter Contracts).

COST ELEMENTS	PROPOSED CONTRACT ESTIMATE-TOTAL COST	PROPOSED CONTRACT ESTIMATE-UNIT COST	REFERENCE
(1)	(2)	(3)	(4)

Under Column (1) - Enter appropriate cost elements.

Under Column (2) - Enter those necessary and reasonable costs that in offeror's judgment will properly be incurred in efficient contract performance. When any of the costs in this column have already been incurred (e.g., under a letter contract), describe them on an attached supporting page. When preproduction or startup costs are significant, or when specifically requested to do so by the Contracting Officer, provide a full identification and explanation of them.

Under Column (3) - Optional, unless required by the Contracting Officer.

Under Column (4) - Identify the attachment in which the information supporting the specific cost element may be found. (Attach separate pages as necessary.)

B. Change Orders, Modifications, and Claims.

COST ELEMENTS	ESTIMATED COST OF ALL WORK DELETED	COST OF DELETED WORK ALREADY PERFORMED	NET COST TO BE DELETED	COST OF WORK ADDED	NET COST OF CHANGE	REFERENCE
(1)	(2)	(3)	(4)	(5)	(6)	(7)

Under Column (1) - Enter appropriate cost elements.

Under Column (2) - Include the current estimates of what the cost would have been to complete deleted work not yet performed (not the original proposal estimates) and the cost of deleted work already performed.

Under Column (3) - Include the incurred cost of deleted work already performed, using actuals incurred if possible; or, if actuals are not available, estimates in the contractor's accounting records. Attach a detailed inventory of work, materials, parts, components, and hardware already purchased, manufactured, or performed and deleted by the change, indicating the cost and proposed disposition of each line item. Also, if offeror desires to retain these items or any portion of them, indicate the amount offered for them.

Under Column (4) - Enter the net cost to be deleted which is the estimated cost of all deleted work less the cost of deleted work already performed. Column (2) minus Column (3) equals Column (4).

Under Column (5) - Enter the offeror's estimate for cost of work added by the change. When nonrecurring costs are significant, or when specifically requested to do so by the Contracting Officer, provide a full identification and explanation of them. When any of the costs in this column have already been incurred, describe them on an attached supporting schedule.

Under Column (6) - Enter the net cost of change, which is the cost of work added, less the net cost to be deleted. Column (4) minus Column (5) equal Column (6). When this result is negative, place the amount in parentheses.

Under Column (7) - Identify the attachment in which the information supporting the specific cost element may be found. Attach separate pages as necessary.

(7)	(8)	(9)	(10)	(11)	(12)	(13)	(14)

Under Column (1) - Enter the cutoff date required by the contract, if applicable.

Under Column (2) - Enter the number of units completed during the period for which experienced costs of production are being submitted.

Under Column (3) - Enter the number of units remaining to be completed under the contract.

Under Column (4) - Enter the cumulative contract amount.

Under Column (5) - Enter the offeror's redetermination amount proposal.

Under Column (6) - Enter the difference between the contract amount and the redetermination proposal amount. When the result is negative, place the amount in parentheses. Column (4) minus Column (5) equals Column (6).

Under Column (7) - Enter appropriate cost elements. When residual inventory exists, the final costs established under fixed-price-incentive and fixed-price-redeterminable arrangements should be net of the fair market value of such inventory. In support of subcontract costs, submit a listing of all subcontracts subject to repricing action, annotated as to their status.

Under Column (8) - Enter all costs incurred under the contract before starting production and other nonrecurring costs (usually referred to as startup costs) from the offeror's books and records as of the cutoff date. These include such costs as preproduction engineering, special plant rearrangement, training program, and any identifiable nonrecurring costs such as initial rework, spoilage, pilot runs, etc. In the event the amounts are not segregated in or otherwise available from the offeror's records, enter in this column the offeror's best estimates. Explain the basis for each estimate and how the costs are charged on the offeror's accounting records (e.g., included in production costs as direct engineering labor, charged to manufacturing overhead, etc.). Also show how the costs would be allocated to the units at their various stages of contract completion.

Under Column (9) - Enter in Column (9) the production costs from the offeror's books and records (exclusive of preproduction costs reported in Column (8)) of the units completed as of the cutoff date.

Under Column (10) - Enter the costs of work in process as determined from the offeror's records or inventories at the cutoff date. When the amounts for work in process are not available in the contractor's records but reliable estimates for them can be made, enter the estimated amounts in Column (10) and enter in Column (9) the differences between the total incurred costs (exclusive of preproduction costs) as of the cutoff date and these estimates. Explain the basis for the estimates, including identification of any provision for experienced or anticipated allowances, such as shrinkage, rework, design changes, etc. Furnish experienced unit or lot costs (or labor hours) from inception of contract to the cutoff date, improvement curves, and any other available production cost history pertaining to the item(s) to which the offeror's proposal relates.

Under Column (11) - Enter total incurred costs (Total of Columns (8), (9), and

(10)).

Under Column (12) - Enter those necessary and reasonable costs that in the contractor's judgment will properly be incurred in completing the remaining work to be performed under the contract with respect to the item(s) to which the contractor's proposal relates.

Under Column (13) - Enter total estimated cost (Total of Columns (11) and (12)).

Under Column (14) - Identify the attachment in which the information supporting the specific cost element may be found. Attach separate pages as necessary.

INSTRUCTIONS FOR DOE F 1332.6
CONTRACT FACILITIES CAPITAL AND COST OF MONEY

PURPOSE

The purpose of this form is to compute the estimated facilities capital to be employed for a specific contract proposal. An intermediate step is to compute the estimated facilities capital cost of money, using the Facilities Capital Cost of Money Factors developed on Form(s) CASB-CMF. This procedure is intended to be fully compatible with Cost Accounting Standard 414, "Cost of Money as an Element of the Cost of Facilities Capital," and extend those criteria and techniques to prospective periods for forward pricing purposes. Measurement of the amount of facilities capital employed is discussed in FAR 31.205-10.

INSTRUCTIONS

|---|---|
| <p>ITEM 1. Enter the name and address of the contractor and business unit.</p> <p>ITEM 2. Enter the specific contract or request for proposal number to which the computation pertains.</p> <p>ITEM 3. Enter the estimated performance period of the contract.</p> <p>ITEM 4. Enter the names of all the business unit overhead pool and direct charging service/support centers whose costs will be allocated to this contract. The structure must be compatible with the contractor's cost proposal and Form(s) CASB-CMF.</p> <p>ITEM 5. This column is used only for the "projected" method of estimating contract facilities capital employed and cost of money. Each Overhead Pool listed must be further broken down by each Cost Accounting Period impacted by the Performance Period of the contract. The yearly breakdown must also correspond to yearly overhead allocation bases in the contractor's cost proposal, and to separate Forms CASB-CMF for each year listed. If the "historical" method is used, the column should be ignored.</p> <p>ITEM 6. For each Overhead Pool and Cost Accounting Period listed, record the same Contract Overhead Allocation Base amounts used in the pricing report to derive the prenegotiated cost objective. Such amounts should be the same as those used for burdening contract overhead or applying service/support center use charges. The base units of measure (direct labor dollars, direct labor hours, direct material dollars, etc.) must agree with those used on the Form(s) CASB-CMF.</p> | <p>ITEM 7. Carry the appropriate estimated Facilities Capital Cost of Money Factors from the Form(s) CASB-CMF. Business units, overhead pools, and cost accounting periods must agree.</p> <p>ITEM 8. Enter the product of each Contract Overhead Allocation Base (Column 6) multiplied by its related Facilities Capital Cost of Money Factor (Column 7).</p> <p>ITEM 9. Enter the sum of Column 8. This represents the contract's allocable share of the business unit's estimated cost of money for the cost accounting period(s) impacted by the contract performance period. Therefore, it represents a portion of the total(s) of Column 8 of Form CASB-CMF.</p> <p>ITEM 10. Enter the same Cost of Money Rate used in Column 4 of the Form(s) CASB-CMF. Only one rate will be used in the facilities capital estimating process regardless of the length of the contract performance period.</p> <p>ITEM 11. Enter the quotient of Item 9 divided by Item 10. This represents the contract's allocable share of the business unit's estimated facilities value for the cost accounting period(s) impacted by the contract. Therefore, it represents a portion of the total(s) of Column 7 of Form CASB-CMF.</p> |
